I'm a motivated and hard working Year 10 student with a strong interest in exploring game development careers. I'm keen to experience a variety of software fields beyond the GCSE scope, and I'm confident that my curiosity and problem-solving skills drive me to learn more every day. I hope my previous experiences will demonstrate my adaptability, approachability, and eagerness to learn from industry experts.

## Education, training and qualifications

- The Winston Churchill School, Woking, September 2022 – now
- Level 1 Certificate in Latin Language and Roman Civilisation (2025) – A\*
- Hack Club Athena Award Certificate – 4 technical projects with over 30 total hours of coding

Predicted GCSE Grades:

Biology – 8	English Literature – 7	Latin – 8
Chemistry – 8	French – 9	Maths – 9
Computer Science – 8	Geography – 8	Physics – 9
English Language – 7	German – 8	Religious Studies – 6

## Experience and Achievements

### *Hack Club* Hackathon Organiser

- Contact sponsors and raise money
- Lead a memorable experience for 90+ teenagers
- Provide support for technical and infrastructure issues

### *Girls Into Coding* Assistant Mentor/Volunteer

- Support and run robotics workshops for girls

### *Girls Into Coding* Guest Speaker

- Share my coding journey and projects
- Inspire attendees through anecdotes

### Peer Mentor for Year 7s

- Ensure smooth induction for new student cohorts
- Lead activities with other mentors

### Open Evening Maths Department Helper

- Present the department to future students through activities

### Computer Science Club Mentor

- Nurture creativity in future coders
- Sustain diversity by working closely with girls
- Create a collaborative environment

### Maths G&T Club Assistant

- Encourage methodical thinking
- Assist students throughout sessions

### Latin Taster Day Mentor

- Motivate engagement from every student
- Support those with difficulties

## Hobbies and interests

I enjoy tending to my outdoor succulent plants and observing their growth and development. I also like to research specific plants such as *abromeitiella brevifolia* and *delosperma cooperi*. When I'm not looking after plants, I usually work on Godot games, Python APIs, or React front-end projects. I have also been a proud member of Girlguiding for about 6 years and I am currently a part of the 6th Woking Rangers group!
